

SUN PROTECTION POLICY

Purpose:

The purpose of this policy is to support sun protection behaviours at Bayswater North Primary School to minimise risk of health problems from sun overexposure, including skin cancer.

This policy provides guidelines to:

- Support staff and students to use a combination of sun protection measures when UV index levels are 3 or above (generally mid-August to the end of April in Victoria);
- Ensure that there are outdoor environments that provide adequate shade for students and staff;
- Ensure students are encouraged and supported to develop independent sun protection skills to help them to be responsible for their own protection; and
- Support our school's strategies to meet its duty of care and occupational health and safety obligations to minimise harmful UV exposure and associated harm for students and staff.

Scope:

This policy applies to all school activities on and off-site, including camps and excursions. It is applicable to all students and staff.

Policy:

Overexposure to the sun's ultraviolet (UV) radiation can cause health problems including sunburn, damage to skin and eyes, and an increased risk of skin cancer. UV damage accumulated during childhood and adolescence is strongly associated with an increased risk of skin cancer later in life.

UV radiation:

- cannot be seen or felt;
- can be reflected off surfaces such as buildings, asphalt, concrete, water, sand and snow;
- can pass through light clouds;
- varies in intensity across the day and the year (highest from mid-August to the end of April in Victoria); and
- peaks during school hours.

Sun safety is a shared responsibility and staff, parents and students are encouraged to implement a combination of sun protection measures whenever UV levels reach 3 or above. Information about the daily local sun protection times is available via the free SunSmart app, at www.sunsmart.com.au or www.bom.gov.au.

Bayswater North Primary School has the following measures in place for all outdoor activities during the daily sun protection times to help reduce the risk of over-exposure to UV radiation for staff and students.

Shade

Bayswater North Primary School provides sufficient options for shelter and trees to provide shade on school grounds, particularly in places such as:

- *Prep undercover area*
- *Designated outdoor eating spaces*
- *outdoor lesson areas*
- *Prep/Foundation playground*
- *Year 1/2 playground*
- *Year 3-6 Playground*
- *Drink taps near toilets*

Students are encouraged to use available areas of shade when outdoors during peak sun protection times, particularly if they do not have appropriate hats or outdoor clothing.

When building works or grounds maintenance is conducted at Bayswater North Primary School that may impact on the level of shade available to staff and students, a review of the shaded areas available will be conducted and further shading installed as appropriate.

Sun protective uniform/clothing

Bayswater North Primary School recommends that from mid-August to end of April, and whenever UV levels reach 3 and above, students come to school wearing sun-protective clothing such as:

- loose, cool, densely woven fabric
- shirts with a collar and/or high necklines
- tops with elbow length or long sleeves
- longer style shorts/dresses/skirts
- *rash vests or t-shirts for outdoor swimming activities.*

The Bayswater North Primary School uniform includes sun-protective clothing *options*, including:

- loose, cool, densely woven fabric
- shirts with a collar and/or high necklines
- tops with elbow length or long sleeves
- longer style shorts/dresses/skirts
- *rash vests or t-shirts for outdoor swimming activities.*

Bayswater North Primary School's uniform applies on and off-site unless otherwise advised. When students are not required to wear school uniform (such as school camps, free dress day), Bayswater North Primary School will ensure steps are taken to encourage students to wear sun-protective clothing whenever UV levels reach 3 and above.

Hats

In Terms 1 and 4, all students **must** wear a sun protective hat that shades the face, neck, and ears for all outdoor activities. Hats may also be worn for all outdoor activities outside of the set Terms, by parent or student choice.

The only acceptable alternative to the school uniform hat is a hat that protects the face, head, neck and ears when outdoors, for example broad-brimmed, legionnaire or bucket hat.

Baseball or peaked caps and sun visors are not considered a suitable alternative, as they do not protect the ears, cheeks, or neck.

Students who are not wearing appropriate protective clothing or hats will be asked to use available areas of shade when outdoors or a suitable area protected from the sun.

Sunscreen

Bayswater North Primary School encourages all staff and students to apply SPF30 (or higher) broad-spectrum, water-resistant sunscreen daily whenever UV levels reach 3 and above. Sunscreen should be applied at least 20 minutes before going outdoors and reapplied every two hours (or more frequently if sweating or swimming).

Bayswater North Primary School students and staff are reminded and encouraged to bring their own SPF30 (or higher) broad-spectrum, water-resistant sunscreen to school.

Sunglasses

Where practical, Bayswater North Primary School encourages students and staff engaged in outdoor activities to wear close-fitting, wrap-around sunglasses that meet the Australian Standard 1067 (Sunglasses: Category 2, 3 or 4) and cover as much of the eye area as possible.

Curriculum

Students at our school are encouraged to make healthy choices. They are supported to understand effects of sun exposure and are encouraged to be involved in initiatives to promote and model sun protection measures to the whole school.

Staff role-modelling and OHS

Staff are encouraged to access resources, tools, and professional learning to enhance their knowledge and capacity to promote sun smart behaviour across the school community.

UV radiation exposure is considered as part of our school's risk management and assessment for all outdoor events and activities, i.e. UV radiation protection strategies are included in school camp activities, excursions, sports days and interschool sports events.

Families and visitors

Families and visitors participating in and attending outdoor school activities are encouraged to:

- wear a sun-protective hat, covering clothing and, if practical, sunglasses;
- apply SPF30 (or higher) broad-spectrum, water-resistant sunscreen; and
- seek shade whenever possible when outdoors.

Community engagement

Sun protection behaviour is regularly reinforced and promoted to the whole school community through newsletters, school website/intranet, staff and parent meetings, school assemblies, student and teacher activities and at student enrolment/new staff orientation.

Families, students, and staff are provided with information, ideas and practical strategies to support UV safety at school and at home. Bayswater North Primary School may provide information through The Link newsletter, Compass, noticeboards, school website, and school assemblies.

Communication

This policy will be communicated to our school community in the following ways:

- Available publicly on our school's website;
- Included in staff induction processes;
- Included in staff handbook/manual;
- Included in transition and enrolment packs;
- Discussed at parent information nights/sessions;
- Reminders in our school newsletter;
- Discussed in student forums; and
- Hard copy available from school administration upon request.
